

Retail Price Management Labeling Solutions

Turn your labels into your best in-store sales promoter

The right price labels give a voice to your products in the store. They help you attract consumer attention, move products faster and avoid checkout confusion.

Trust the leader in thermal printing to give your products that virtual voice.

Whatever your retail strategy and environment is, Zebra can customize a price labeling solution to support your goals. And here is why. Our extensive portfolio includes more than 300 rigorously pre-tested and certified materials. We can create any size and shape to match the exact requirements of your applications. Add security features to prevent label swapping. Need pre-printed color, text, graphics, or logos? We can do that, too.

Are these obstacles placing your sales in slow motion?

Price labeling supplies may often seem like a small part of the retail business. They are not. Using the wrong type of labels, or choosing low quality labels, can have far-reaching, costly implications. Consider these:

Cause

Inadequate price labels easily altered, swapped or peeled off between garments
Hard-to-scan labels and poor barcode readability
Labels not clear or appealing enough to attract consumer's attention
Missing labels, hard-to-read prices
Labels and tags not right for shelf or channel specific size
Labels hard to view from afar; not designed for that specific location
Labels not quite matching the brand

Effect

Shrinkage due to label tampering

Checkout errors; process interruption; customers annoyed

Inability to move products at first markdown

Customer dissatisfaction due to price not marked correctly

Difficulty securing prices to shelf; consumers walk past them without noticing offers

Promotional pricing does not drive store sales

Weakens customer brand perception and discourages loyalty

Let Zebra effectively match your pricing strategy with execution

How to communicate price and drive store sales

You put a lot of thought and effort into your pricing strategy. Zebra puts a lot of research and development into our certified custom materials, so, irrespective of your pricing strategy, you always get the customized labeling solution that is right for your business.

We start by working with you to select the right material for your environment. Then, from branding elements and special promotions, to security features, to accurate shapes, sizes and PMS color matching, we ensure that the labels and shelf tags we design for you address your concerns.

Use of
IQ COLOR LABELS

accelerated pace of markdowns by up to

35%

Markdowns

Whether you use a clearance, discount percentage or multicolor discount strategy, let Zebra help you reduce the number of markdowns prior to sale. Our custom labels support the right communication to the consumer. We can also consolidate the number of labels you need. All that, ensuring high quality, tamper-evident solutions that help prevent label swapping.

Material Name	Material Type	Adhesive	Special Feature
IQ Color 2000D	Direct thermal paper label	Permanent acrylic adhesive	Ability to print color on-demand
Z-Peform 2000D	Direct thermal paper label	All-temp permanent acrylic adhesive	Can be applied in temperatures as low as -40°F, -40°C
8000D Destructible Label	Direct thermal polyethylene label	Permanent acrylic adhesive	Delaminating film enables easily destructs to prevent "label swapping"

Shelf Labeling and Promotions

Many purchase decisions are made when a consumer approaches the shelf or an enticing message captures their attention from a distance. Zebra can help you communicate price clearly for products not individually labeled, highlight sales and special offers without impacting product visibility, and more. We also offer:

- PMS color matching for easily identifiable brand image every time
- Solutions that withstand environmental conditions:
 - fluorescent light and sunlight
 - refrigeration and freezer temperatures
- Solutions that offer easy removal and replacement from shelves

Material Name	Material Type	Adhesive	Special Feature
Z-Perform 1000D 5.3 Mil Tag	Direct thermal paper tag	Not applicable	Lay-flat for easy insertion into shelf channel
PolyPro 4000D	Direct thermal polypropylene label	All-temp permanent acrylic adhesive	Waterproof, easy to remove in one piece. Can be applied in temperatures as low as -40°F, -40°C
Z-Perform 2000D	Direct thermal paper label	All-temp permanent acrylic adhesive	Can be applied in temperatures as low as -40°F, -40°C
Z-Perform Select 4000D Removable	Direct thermal paper label	Removable acrylic adhesive	Clean removability without tearing or scraping off
8000D Shelf Talker	Top-coated, clear polypropylene	All-temp, removable adhesive tab	Direct thermal shelf talker that supports in-aisle printing and easily removes from shelf.

Product Pricing

Zebra supports initial product pricing, re-pricing and specialty applications, including branding with PMS color matching, before on-floor merchandising. Your products come without a price, incorrectly priced, or a price tag is missing? No problem. Zebra offers solutions to apply pricing in-store and/or at your Regional Distribution Center.

Carry specialty, often delicate, products that require a smaller size and/or specific shape label? Again, no problem. Zebra partners with you to design a functional solution for jewelry, sunglasses, glassware and others, that is easy to handle and will clearly mark them with no damage to the product.

8000D Jewelry

Features a special shape to wrap around delicate jewelry

Material Name	Material Type	Adhesive	Special Feature
Z-Perform 2000D	Direct thermal paper label	All-temp acrylic adhesive	Can be applied in temperatures as low as -40°F, -40°C
